CATTLE WILL REDEEM WEST FLORIDA LAND**Importation of Thoroughbred Dairy and Beef Cattle Into West Florida Continues**

More cattle have been imported into west Florida during the past month than were ever sent into the state before, authorities on Florida live stock say and they prophesy a future for the state in this industry which will greatly increase the natural resources. The cattle are being sent in under the direction of the U. S. Department of Agriculture most of them from drought stricken districts of Texas. Several varieties have been shipped in and feeding experiments have already begun in several West Florida counties to ascertain what breeds will stand best the Florida climate.

Two carloads of Aberdeen Angus cows and heifers and fifteen Hereford cows have arrived at Alachua, the Herefords for J. L. Matthews and the Angus by F. M. Stephens, H. N. LeRoy and J. L. Shaw and are said to be one of the best shipments ever brought into Florida. F. R. Hitchett, of DeLunak, has purchased 41 head of fine Shorthorn cattle from Texas, through C. F. Walker of the Cattle Raisers' association.

G. W. Black, of Holmes county, has returned from Texas with 36 head of registered Herefords and reports that cattle are cheaper and more plentiful in Texas than last year. Altogether Mr. Black has brought 540 head of cattle into Holmes and Jackson counties.

Feeding Experiments.
An interesting feeding experiment is being carried on with 120 Texas cattle on Mr. Black's farm by Demonstration Agent Schreier and Agent W. H. Black of the bureau of animal industry, Washington, with 40 head of native cattle. They are being fed corn and velvet beans and will be topped off with 20 days of dry lot feeding to test the value of the Hereford over the native cattle.

The Florida Peanut Company, of Malone is feeding 275 head of Texas cattle recently purchased and a demonstration is planned there to test the comparative feeding value of peanuts and velvet beans.

TORREY SCHOOL RAISES \$375 IN EARN AND GIVE

The younger boys of the Torrey school, 75 strong, have set a pace for the boys of the city, having subscribed \$375.00—\$5.00 apiece—to the United War Work drive, at a meeting held at the school yesterday morning, at which Wayne P. Seawell, district director, and W. K. Hyer, county chairman, addressed them in relation to the drive which is launched today.

The Earn and Give campaign of the Victory boys and girls will be an important feature of the campaign this week, and the students of the High school and two grammar schools will be given liberty at eleven o'clock, to take part in the rally at the city hall, and afterwards join in the parade. The city chairman of the Earn and Give campaign, Craighill Brown, has associated with him on his committee, Ed Lurton and Benjamin Robinson, and the employed boys are under the direction of Julian Olsen, of the Y. M. C. A.

The boys and girls will make an active drive this week, and it is expected that their efforts will play an important part in the success of the campaign.

DRUGGISTS STILL ASKED TO CONSERVE STOCKS OF VAPORUB NEEDED IN "FLU" DISTRICTS

Influenza Epidemic is Decreasing in Most Sections and The Demand is Slackening But We Are Still 18,000 Gross Behind On Orders and It Will Take Some Time To Catch Up.

THREE MILLION JARS SHIPPED DURING OCTOBER

On Monday, October 21, we addressed an advertisement to the wholesale and retail drug trade, advising that we were badly overstocked, due to the influenza epidemic, stating that all deals and quantity shipments were postponed, and requesting that Vaporub be purchased in small lots only. This condition still prevails.

At this writing we have back orders for eighteen thousand (18,000) gross and our orders each day are double our daily output. The epidemic, however, is decreasing in most sections, the demand is slackening and we are working night and day to catch up. In the meantime, we ask the trade to be patient with us.

ENORMOUS SHIPMENTS HAVE WIPED ITS INFLUENZA DISTRICTS

On October 1st we had on hand at the factory and in twenty warehouses over the country a tremendous stock of Vaporub, accumulated during the summer months. This is now gone—we actually shipped during the month of October over three million jars of Vaporub. We are speeding up our factory as much as possible and the problem now is to distribute the factory's output as quickly as possible. We have, therefore, for the time being, abandoned freight shipments and are shipping either by Parcel Post or express—trying to give each jobber at least a little stock.

IMMEDIATE SHIPMENTS TO DRUGGISTS IN INFLUENZA DISTRICTS.

Preference is being given to those sections stricken by influenza. In order to reach these sections as quickly as possible, we are, during this emergency, making shipments by Parcel Post, direct, to the retail trade of not more than three (3) dozen 30c size in any one shipment. We prefer that the jobbers order these shipments for their trade but to save time we will, if the need is urgent, ship direct on receipt of check or money order. Naturally, no new accounts can be opened during this rush.

IMPROVEMENTS TO BE MADE

Ferry and work will also be done on the Gulf Point road.

Commissioner Gandy, following a conference with J. H. Barclay, announced that the Lillian bridge road will receive immediate attention.

Much criticism of the road leading to the Escambia Ferry and Lillian bridge has been offered by users of those highways and their condition has been considered detrimental to the best interests of the county. When placed in passable condition it is stated that traffic from Baldwin county and Santa Rosa county will greatly increase.

The commissioners report that good progress is being made on the bayshore road, leading to the government reservation, despite the shortage of labor.

At present, it is stated that one of the road camps has four prisoners, for which a cook, guard and night watchman are required. It is understood that another of the county camps has three prisoners, requiring an equal number of paid attendants. The suggestion that the camps be consolidated, thus reducing the expense of their operation, has not received the approval of some of the commissioners and it is said that the situation will possibly be improved to a certain extent by securing convicts from the state.

HOW TO USE VAPORUB IN TREATING SPANISH INFLUENZA.

In every case call a physician—Vaporub should be used only in connection with the physician's internal treatment.

Apply hot, wet cloths over the throat, chest and back between the shoulder blades to open the pores. Dry lightly and rub Vaporub well in until the skin is red—spread on thickly and cover with hot flannel cloths. Leave the bed-covering loose around the neck as the body heat releases the ingredients in the form of vapor. These vapors, inhaled with each breath, stimulate the lining of the air passages to throw off the influenza germs. In case of head or chest cold, which often accompanies influenza, the vapors tend to keep the air passages open, loosen the phlegm and make the breathing easier. In addition, Vaporub is absorbed through and stimulates the skin, attracting the blood to the surface, and thus aids in relieving the congestion within.

HOW TO USE VAPORUB AS A PREVENTIVE

It is questionable if there is anything which will prevent Spanish influenza, except avoiding those persons who are spreading the disease by coughing, sneezing and spitting, and by keeping up the bodily resistance by plenty of good food and exercise in the open air. The Public Health Service recommends that the nasal passages be coated with a weak solution of Menthol in fluid petroleum as a protective. For this purpose Vaporub is excellent. Just put a small portion up each nostril from time to time during the day and snuff well back into the head.

KEEP FREE FROM COLDS BY INHALING VAPORUB

Colds irritate the lining of the air passages and thus render them a much better breeding place for the germs. At the first signs of a cold use Vaporub at once. Melt a little in a spoon and inhale the vapors arising, or Vaporub can be used in a regular benzoin steam kettle, such as most druggists carry in stock. If this is not available, a very good substitute to use is an ordinary tea-kettle. Fill half full of boiling water, put in half a teaspoon of Vaporub from time to time—keep the kettle just slowly boiling and inhale the steam arising.

REVOLUTIONISTS CONTROL BERLIN

(By Associated Press)

London, Nov. 10.—How far the example of the Russian Bolsheviks has influenced the German upheaval is an interesting question. Some German newspapers on Friday described the movement as Bolshevik, Red flags figured frequently at various risings and Chancellor Ebert's motor car floats the international emblem.

Russian prisoners played a part in the demonstrations at two or three towns.

According to dispatches from Amsterdam and Copenhagen, the revolution in Germany is extending rapidly, but in most places its desired effect is being achieved without violence or serious disorders.

In some places, notably in Anhalt, Hesse-Darmstadt, and Mecklenburg-Schwerin, the princely houses are cooperating with the reforming parties in establishing the new order of things. Up to the present, the most serious conflict taken place in Kiel. The Soldier and Workmen's Councils of most large cities appear to be devoting their efforts to organizing food supplies, famine being threatened in places by the stopping of trains.

Complaints have already been heard in Berlin of press censorship being organized as arbitrarily by the new as by the old regime.

Leipzig, Stuttgart, Cologne and Frankfurt have joined in the revolution, according to the Exchange Telegraph company. Soldiers councils at Stuttgart, Cologne and Frankfurt have decided to proclaim a republic.

Severe fighting occurred in Berlin between 6 and 8 o'clock last night and a violent cannonade heard for the heart of the city.

Revolution is in full swing in Berlin and the red forces occupy the greater part of the city.

According to a Copenhagen dispatch to the Exchange Telegraph company, quoting Berlin advices, many persons were killed and wounded before the officers surrendered. The red forces are in control and restored order, strong guards marching through streets.

The crown prince's palace was seized by the revolutionists.

People are shouting "long live the republic" and singing the Marseillais. Revolutionary soldiers shelled one building from which shots were fired. People thought the Reichsbank was being bombed and crowds rushed toward the crown prince's palace, but it was found that other buildings were being shelled.

HELP

**EASY TO DARKEN YOUR GRAY HAIR**

You can Bring Back Color and Lustre with Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure, mitigation or prevention of disease—adv.
